PROJECTS

Dev Verse

08/2025 – 09/2025

Dev Verse – Developer Documentation Platform Full-stack Next.js web application featuring responsive design, code snippet search functionality, interactive JavaScript editor, and automated contact system. Implemented with React hooks, CSS Grid/Flexbox, Nodemailer integration, and deployed on Vercel with environment variable management.

News App

07/2025 – 08/2025

React.js, NewsAPI, JavaScript, HTML, CSS

- Built a responsive News web application using **React.js** and integrated **NewsAPI** to fetch real-time headlines across multiple categories (e.g., Business, Entertainment, Sports).
- Implemented **dynamic routing**, **loading spinners**, and **infinite scroll** for enhanced user experience.
- Used **Axios** for API calls and managed state using **React Hooks** (useState, useEffect).
- Deployed the project on **Vercel** (or Netlify) for public access.
